CONFERENCE TABLES.

SEMINAR/TRAINING TABLES.

SPECIAL USE TABLES.

SUPPORT FURNITURE.

OCCASIONAL TABLES.

WE DO IT ALL.

WE BRING A LOT OF EXPERIENCE TO THE TABLE.

At HLF, we approach our tables with form, function and affordability in mind. We build in the features that make our tables stand up to the rigors of everyday life, endure the changes of office environments, and outlast design trends. And it shows — in the design and quality of the materials used to build them. Every style has been designed to fit a unique need.

Every detail has been thought out to provide flexibility and durability. Our tables show off our experience in offices, conference rooms, K-12 schools, colleges and universities, health care and training facilities across the country. And they'll work for you.

CONFERENCE TABLES THAT MEET YOUR EVERY NEED.

For imaginative meetings, the agenda is loaded with possibilities. Choose a conference room table with laminate, metal, and wood that makes a powerful statement. Then add your personal touches — like a range of edge profiles, custom stained or natural finish wood edges, or metal bases in bold colors. These tables perform in the real world of scuff marks, kicks, bangs and spills. You're sure to find a shape and size to fit your space and meeting style.

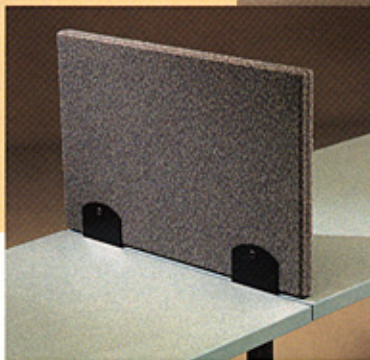

Make a statement with a bold combination of color and texture like this racetrack shaped conference table featuring a hardwood bullnose edge (top), or rectangular conference table with colorful power coat legs (above).

SEMINAR/TRAINING TABLES WORTH LEARNING ABOUT.

HLF seminar/training tables are leaders in their class. They offer the style and durability of HLF conference room tables, combined with special features like SecureLock devices, grommets, modesty panels, wire management, and screens.

Optional screens provide individual work areas — great for training sessions.

Big meetings. Small training sessions. Roundtable discussions. Informal seminars. HLF seminar/training tables meet any agenda and can be rearranged for different needs. Abutting table edges can be squared or eased to assure a quality fit. SecureLock™ devices provide a firm attachment of adjoining tables. Choose from a variety of surfaces, edges, legs, modesty panels, screens and electrical/wire management solutions, depending on your needs.

LEGS. EDGES. COLORS. MATERIALS.

NICE LEGS

ARE A PART OF OUR GREAT SUPPORT.

Everyone likes a choice. And when it comes to specifying HLF table legs, you have plenty to choose from.

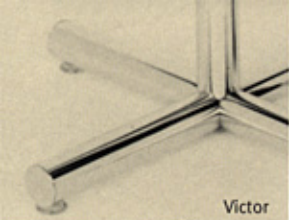

Select laminate or metal legs in a variety of styles. Laminate legs come in trestle, half-cylinder or drum. Metal legs are available in T, double-T, X-base, cast iron, disc, metal drum and individual legs with trim rings.

Both laminate and metal legs know how to get their kicks and still look great. Metal legs come in 14-gauge steel for years of hard wear. Choose gleaming chrome or cast iron. Or match your table trim to your leg color with stunning powder coated legs in a range of beautiful colors.

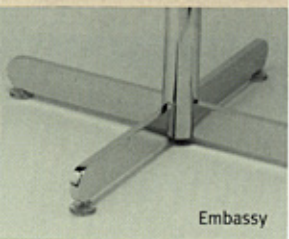

A wide range of table tops combine with your choice of legs for the look and function you want.

THE CHOICES
ARE ENDLESS.

Urethane edges are the ultimate in durability.

PVC edges come in a variety of colors to complement HLF laminates, providing a uniform look with added durability.

Wood edges provide a distinctive finishing touch.

JUST THE EDGE YOU'RE LOOKING FOR.

Once you choose your table, then get the edge you need to achieve a particular look. And depending on where the table will be used, you may wish to specify an edge treatment for extra durability.

With HLF tables, you've got the edge with your choice of laminate in all the major brands, and solid wood edge treatments in Oak, Mahogany or Maple.

Or select a vinyl t-mould, urethane or PVC edge for extra durability.

Watch your table take shape with your choice of a self-edge, bullnose, traditional or eased edge. With the right combination, you'll have the right table to fit the design of your office, school or conference room.

TABLES THAT ADJUST TO ANY SITUATION.

Up and down. Back and forth. Vertical or horizontal. Special features available on some HLF tables allow you to adjust them as you like. Like tables that roll wherever you need them. And tables that feature adjustable legs so they can be used as school desks and

“grow up” with the children. Tables with folding legs. Or a flip-top table that flips up to a vertical position. Whatever you need, chances are HLF has a table that can adjust to your situation.

Above: HLF gives new meaning to the term “mobile office”. Wheels make it easy to move and arrange the tables to facilitate multitasking.

Left: Height-adjustable legs allow Scholar Series tables to grow with the students from elementary through high school.

You'll flip for the HLF flip-top table. The top flips to a vertical position.

Tables with folding legs have a heavy-duty folding mechanism.

OUR GREAT SUPPORTING CAST.

Lecterns. Credenzas. Telephone/fax stands. Visual Boards. Carts. And more. HLF offers all the supporting elements you need to finish a room in style.

All available in corresponding finishes, too.

All designed to complement and complete your conference/training room environment.

This training table neatly hides electrical cords with a wire management system that's built into the modesty panel.

From left to right: audio/visual cart with pop-up power grommet; credenza with contrasting bullnose trim; visual board with dry eraser writing surface; and lectern.

TABLES FOR EVERY OCCASION.

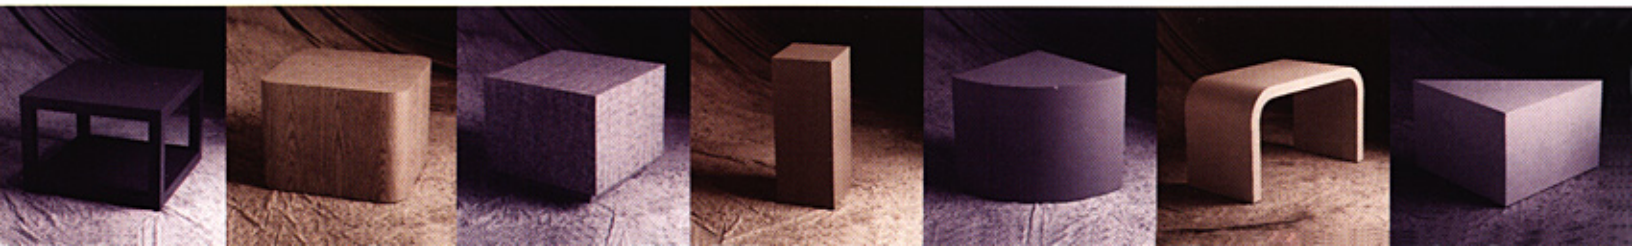

End tables. Coffee tables. Sofa tables.
Console tables. With HLF, there's a laminate
table for every occasion.

Cubes. Cylinders. Semi-circles.
Triangles. Simple shapes to fit
any space and any place. Like
reception areas, offices and
conference rooms.

A variety of sizes, heights and finishes make it easy to
match form and function. Whether you use them as a focus
or an accent, in a grouping or alone — HLF has the tables
to fit any occasion.

**HLF FURNITURE.
TOPS FOR TABLES
AND A WHOLE LOT MORE.**
